### **III. PARTIES' POSITIONS**

1. Requestor: letter dated 07/24/02  
"We feel that 47% paid on a right shoulder scope is not fair or reasonable. We feel that (Carrier) should reimburse us more appropriately as \$4472.00 does not cover our costs to perform this surgery."
2. Respondent: none submitted

#### **IV. FINDINGS**

1. Based on Commission Rule 133.307(d)(1&2), the only date of service (DOS) eligible for review is 07/05/01.
2. The provider, an ambulatory surgery center, billed a total of \$9,461.81 on the DOS in dispute.
3. The carrier reimbursed \$4,472.00 and the EOB indicates this is a fair and reasonable reimbursement dispute.
4. The amount in dispute is \$4,989.81; the difference between the billed amount and the amount reimbursed.

#### **V. RATIONALE**

The medical documentation indicates the services were performed at an ambulatory surgery center. Commission Rule 134.401(a)(4) states ASCs, “shall be reimbursed at a fair and reasonable rate...”

Section 413.011(d) of the Texas Labor Code states, “Guidelines for medical services must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fees charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual’s behalf. The Commission shall consider the increased security of payment afforded by this subtitle in establishing the fee guidelines.”

Commission Rule 133.304(i)(1-4) places certain requirements on the carrier when reducing the billed amount to fair and reasonable. The carrier has not submitted its methodology or documentation that would satisfy the requirements of this Rule.

Commission Rule 133.307(g)(3)(D) requires the provider to supply documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement. The provider has submitted several EOBs from other carrier that show a higher percentage of the billed amount reimbursed. The provider uses these EOBs as examples of fair and reasonable reimbursement.

Regardless of the carrier’s response, denial codes, methodology, lack of methodology or application of methodology, under the Act, there must be specific statutory authorization to create liability through waiver. The burden is on the provider to show that the amount of reimbursement requested is fair and reasonable and conforms to the criteria identified in Sec. 413.011(d) of the Texas Labor Code.

To establish entitlement to additional reimbursement the provider has submitted EOBs showing a higher rate of reimbursement from other carriers. However, the willingness of some carriers to provide reimbursement at or near the billed amount does not necessarily document that the billed amount is fair and reasonable and does not show how effective medical cost control is achieved,

a criteria identified in Sec. 413.011(d) of the Texas Labor Code. Therefore, based on the documentation available for review, the Requestor has not established entitlement to additional reimbursement.

The above Findings and Decision are hereby issued this 29<sup>th</sup> day of August 2002.
